THE FUSION TABLE MAKES THE DIFFERENCE

Times are changing, trends are succeeding one another... but, undoubtedly, the word «fusion» has become more than a concept. We have fusion of generations, fusion of cultures, fusion cuisine, fusion music. Today, we are offering Fusion furniture. Nowadays, a good product is not just a good design but also an environment: the life and the people which the product targets and their need to create valuable moments.

Offering emotion and quality time, these are the core values of the Fusion table that make the difference. Designed to entertain, the Fusion table has exactly what is needed to create wonderful and unforgettable moments for you, your family and guests, all in a resolutely contemporary setting.

By these special days our regard on our home equipment has changed. More than ever we care for our living room and our family members. More than ever, we need to spend good times with them and find quality entertainment at home. Multifunctional furniture is achieving this goal and the Fusion table allows cool, funny and zen moments with your loved ones, and friends.

ENJOY YOUR MEAL...

Functional, with a timeless and elegant design, the Fusion table creates a relaxing atmosphere for dinner with family or friends. Able to seat 10 people comfortably, the Fusion table is perfect for family or professional meetings.

The generous width of the Fusion table offers you the opportunity to set a table of rare elegance and will be very practical and comfortable for your receptions.

... AND PLAY !

After the meal, it takes less than a minute to change the Fusion table into a top-of-the-range billiard table.

Just slide the benches under the table, remove the three table tops and pick up the billiard cues, triangle, Aramith billiard balls and chalk. You are ready to start a game. With a simple click, the patented «easylift» system raises the table to the required height for a billiard game.

This billiard table strictly complies with the dimensions of a 7-foot American table. Enjoy the technical standards of a genuine billiard table in the comfort of your home or office. Both experienced players and amateurs will enjoy it.

EASY-LIFT SYSTEM[®]

The standard spring assisted Easy-Lift system allows to raise the Fusion table with minimal effort adding 3" / 75 mm from standard 29.5" / 75 cm dining height to optimal playing height.

The system requires no maintenance and has a patent pending auto-lock auto-level feature assuring perfect leveling, and maximum stability & steadiness to the Fusion table in its upper position.

HIGH QUALITY EQUIPMENT

The combination of premium equipment with the finishing expertise only passionate artisans can assure, results in a design dining pool table that everyone perceives as exceptional and that has a longevity to last several generations.

High-quality components, modern materials, and the meticulous selection of the very best timber are essential characteristics of the Fusion quality.

FLAT POCKET SYSTEM

With its unique flat pocket system, all billiard accessories, cues and rack but also the balls can be stored in the Fusion's elegant 12 cm (4 1/2") narrow table top. These pockets made of memory nylon extend underneath the table when pocketing balls, but return to their flat non-visible position when the balls are removed. At the end of the game, metallic strips can be slid over the 6 nylon pockets allowing to store balls in each one of them without having the nylon pockets stretching downwards.

"K66" RAILS

The Fusion billiard table is fitted with K66 rails, known for offering one of the best rebounds for great precision in the game.

SIMONIS TABLE CLOTH

Blue Green	31	27	28	29	36

Purple	Orange	Camel	Gold		
	76	72	75	77	

The Fusion table is always fitted with Simonis table cloth, worldwide considered to be the ultimate benchmark for high-quality cloth.

These cloths, containing at least 70% wool, guarantee optimum speed, a smooth roll, easy maintenance and an exceptional lifespan.

A ONE PIECE SLATE

The Fusion table is delivered with a 3/4" / 19 mm high precision cut natural slate.

Already covered with cloth, this 1-pce mono-bed slate on Fusion's rigid Space-Frame avoids all adjustment problems common with the usual 3-pce slate surfaces.

VINTAGE

The New Vintage collection is marked by a unique and easily recognisable style. A perfect mix between reclaimed wood timbers and a post-industrial metal frame. Sober and original, yet relevant and groundbreaking, the Vintage dining pool table provides class to any space through its perfect blend of chic and tradition.

Old oak wooden floors have been sourced in rural Portugal and recycled into beautiful vintage panels which are then married with old powder blue Iwan Simonis cloth. The result is stunning, inviting you to breathe the air of an old Brooklyn workplace or a typical 80's English pub without leaving your dining room.

Disclaimer : The natural beauty and distinctive appearance of Fusiontables wood finishes are linked to inherent qualities and characteristics of wood itself. Walnut or Oak Trees, even growing side by side, are different. Various grain pattern, grain color variation, and unique markings are to be accepted from a real wooden component and may not be considered as defects. These variations are obviously more visible on Vintage Oak models.

CUE HOLDER

Fusiontables is the proud pioneer premium brand for billiard dining multifunctional and smart design tables. But having an design pool table into your dining room doesn't make sense if your billiard cues have to be hanged on a traditional wallbar the dining room wall, don't you think ?

Therefore Saluc created a new cue holder to turn your living room into a art gallery.

What do you think about this 16cm diameter pure phenolic ball, using the same material and the same production process as our famous billiard balls to keep safe your 4 cues ?

Be sure these glossy, smooth, flashy sphere will be the real eye-catcher of your living and will tease your guests.

Thanks to the Fusion Cue Holder, your cues are not to hide anymore they are part of your own interior identity.

Technical features : 16cm diameter | 4 holes | one metal support | 4 colors available : Black, Fushia, Orange, Red

BLACK Label - GLASS PANELS

This perfect black combination is mixing a mat powder coating pool table frame with black mat cushions, black cloth made by Iwan Simonis and a very special black tempered glass top. This 3-piece top can be printed in very high resolution just by sending us a picture on a file. The image is processed by a full new printing technology made by Saint Gobain.

The stunning effect can be supported by high glossy or polished 8mm tempered glass. Black cherry on the cake : a new black Aramith Kit, containing world premiere black billiard balls, black cues, black triangle and the brand new X-1 chalk dust remover made by Iwan Simonis lab will be supplied with this collection.

We hope this new model will make the interior design possibilities wider and will lead to a perfect integration of the convertible dining pool table into the ultra chic and minimalistic or modern design environment. All artists and interior designers will be able to give full inspiration on this modern billiard table.

Formal

Since the Black Label edition tempered glass tops can be totally customized, interior designers and design fans from all over the world get the opportunity to create their own visual style like this smart and oriental white table for example

The 3mm TECHLAM® panels, selected for our Rock Reverso Collection, provides the final touch to produce perfect modern furniture pieces with beautiful contemporary design.

The new Rock Reverso option allows you to create a changing ambience in your dining room by providing two different surfaces in one conceptual table top: one face is covered by wood veneer, the other by ceramic. Rock Reverso is the most resilient surface you can specify for your Fusion pool table. Long lasting and easy to maintain, this exclusive and modern material presents antibacterial and antifungal properties and is superbly environmentally friendly as the raw materials used to produce the panel are from recycled sources, removing the impact of extracting new stone.

MATCHING BENCHES AND STOOLS

The FusionTable lines include also a variety of benches and stools, that matches the tables pure and delicate lines that enhance the contemporary look. To free the playing area, these Fusion benches and stools have been designed to be stored under the table during the game.

- Lacquered aluminium (powder coating) or stainless steel structure that match the Fusion table's colours.
- Multifiber covering: black, white.
- Overstitched seams for a perfect «leather» effect.
- Firm seat thanks to compact and comfortable foam.
- Bench for 4 people, stool for one person.

MODEL 1

FUSION CHAIRS

The Fusion chair has been specially developed by the Fusiontables design team. Its black microfiber leather covering makes it extremely comfortable as well as easy to clean and matches with other items.

The Fusion chair back has been designed to sit flush to the Fusion table in its higher position so as not to disturb players during a game of billiards. So there is nothing to put away before playing.

Cream white

MODEL 2

The new Fusiontables chairs feature a new design aimed to better fit with the current trend, while still offering the advantage to perfectly fit with the Fusion table height.

As such, no need to move the chairs to seamlessly play your favourite game when the table is at its upper billiard position.

Black

Taupe grey

They also offer the option to be stacked whenever necessary, and offer an improved comfort and easy maintenance, with high quality PU leather available in Black or Taupe grey.

FUSION LED SYSTEM

With this light and contemporary pendant lamp, the Fusion LED system allows you to create two atmospheres. During meals, the 7 white LEDs create a pleasantly intimate environment for your guests. When playing billiards, 14 long-life LEDs offer a stronger light to illuminate the entire table.

Economical and environmentally-friendly.

Consumption: 42 Watts

Intensity: 1050 Lumens

Light colour: 4000 Kelvin

Characteristics:

- Operates with a 200 - 240 Volt transformer and a group section switch.
- SEC 12 - 35 V 700 mA
- Net weight: 10 kg
- Material: glass & metal, satin nickel finish.

The transformer and LED switch are certified EC/VDE
